# Important Questions To Ask During Your Porcelain Veneers Consultation

---

*The initial consultation is your opportunity to ask the cosmetic dentist all of the questions you have about porcelain veneers before taking the next step in the treatment process. To help patients get the most from this first meeting, the Villanova Dental Studio has created a list of questions you can use to determine not only your suitability for veneers but also the dentist's ability to enhance your smile and support your oral health.*

**Keep this list handy during your porcelain veneers appointment:**

## **Dentist's Background**

- What type of porcelain veneers do you use?
- Can I see before-and-after images of your work?
- How often and how many times have you placed porcelain veneers?
- What type of training have you had specifically dealing with veneers?

## **Your Needs and Goals**

- Am I a good candidate for porcelain veneers?
- Do I need other dental procedures before getting porcelain veneers?
- Will porcelain veneers meet all of my cosmetic dentistry goals, or will I need additional solutions?
- Is there a better solution for my cosmetic dentistry needs and goals?

## **Price**

- How much will my porcelain veneers cost?
- Is the treatment covered by my insurance?
- Do you offer financing?

# Important Questions To Ask During Your Porcelain Veneers Consultation

---

## The Procedure

- How long will the process take from today until I have my permanent porcelain veneers?
- How many office visits are involved?
- How do you prepare my teeth for veneers? Do you remove tooth material?
- How will the veneers be attached to my teeth?
- Is the procedure painful?
- Will you be numbing my teeth for the procedure?

## Customization

- What technology do you use to match the colour of my teeth when creating the veneers?
- Do you create temporary veneers so I can try them out before I get my permanent veneers?
- What if my porcelain veneers are not comfortable? Can you fix that?
- What if I don't like the way they look? Can they be changed?
- What if I decide I want to get them removed entirely?

## Durability

- How long will my porcelain veneers last?
- Will they become discolored over time?
- Are there dietary restrictions, lifestyle restrictions or other concerns I need to consider?
- How do I clean and care for my veneers?
